Another reason I love Englewood Beach is because you can go surfing. It's so much fun. There are huge waves and they are awesome to ride on. I've been surfing since I was five and I'm addicted to it. I go the beach everyday I can in the summer and that's why I love Charlotte County, Florida. -Emily Holbrook

I just love going to the park. It is so much fun. You get to play on the swings, the slides, and the monkey bars. My favorite thing to go on is the merry go round. I love going on the merry go round because you get to spin round and round and get so dizzy. I also love getting dizzy, it is so much fun. What is your favorite thing to go on? Well that is all. I have for you. Hope you enjoyed it.

people play at the fields every day other than rainy days.

You can go anywhere in Charlotte County and play at the baseball felids. The

Dear World, You should come to Charlotte County because I bet you don't have a mall
as good as ours. There are so many people there shopping, talking, eating, playing, and
more! When there is a large amount of people at one area or place it means it has a large
population. Having a large population is like being popular because all the people hang
around you, or at least that's how I think of it.
